12:00 PM Welcome, Credits, and Certificates

12:05 PM **Design Commercially with SIPs (Structural Insulated Panels)**

This course is an overview of the commercial application of structural insulated panels (SIPs) in Type V Construction (i.e. hotels, offices, multi-family, schools). The designer will gain an understanding of how to properly utilize SIPs for their off-site construction advantages of installation speed, waste minimization, energy efficiency, and sustainability.
