Ambico Ltd. - Acoustic and RF - Shielding Door
Solutions for Cyber Security and Data Center
Applications
Wednesday, June 24, 2026

12:00 PM [Welcome, Credits, and Certificates](#)

12:05 PM **Acoustic and RF - Shielding Door Solutions for Cyber Security and Data Center Applications**

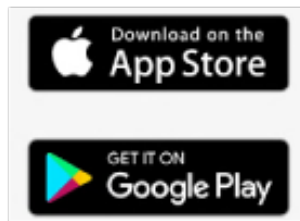

This course introduces architects and specifiers to the fundamentals of Radio-Frequency (RF) shielding in building design, with a focus on doors as critical security openings.

Participants will learn about government standards, key applications, hybrid acoustic/RF door technology, and installation/testing considerations. By the end of the course, attendees will understand how to specify doors that deliver both acoustic and RF-shielding performance in sensitive environments
