12:00 PM [Welcome, Credits, and Certificates](#)

12:05 PM **Advanced Training: Accessible Routes Under the Florida Accessibility Code (2.0 ...),**

This advanced training course provides an overview of the requirements for interior and exterior accessible routes as contained in Chapter 4 of the Florida Building Code, Accessibility Volume. Important definitions applicable to accessible routes are reviewed. The technical requirements for walking surfaces, clearances, doors, ramps, curb ramps, elevators and platform lifts are discussed.

John Farinelli, , CBO, MCP, CFM, FSI 1, LEED AP

As Co-founder and Vice President of JC Code & Construction Consultants, Inc., John has used his experience in the construction industry as a Journeyman Ironworker along with his vast knowledge of building code administration to make JC Code a leader in continuing education. He is responsible for all training program development and course instruction. As an educator, John has taught classes for electrical apprenticeship, building code and fire code continuing education, professional license exam preparation, and across the globe for the International Code Council. John is licensed/certified in the following areas: Certified Floodplain Manager (ASPFM) F.S. 468 Licensed building code administrator, plans examiner and inspector in all disciplines F.S. 468 Home Inspector F.S. 633 Licensed Fire Inspector I F.S. 633 Fire & Life Safety Educator F.S. 489 Registered Building Contractor LEED AP John is also an ICC Master Code Professional. These licenses and certifications have been proven invaluable when providing code consulting services and municipal support services to numerous governmental offices, developers, contractors, homeowners, architects, and engineers.

02:30 PM **Significant Changes to the 2024 International Energy Conservation Code - Commercial Provisions**

This course covers the most significant changes to the 2024 International Energy Conservation Code® (IECC®) for commercial projects. Participants will better understand the effects these key changes have on building design, plan review and inspection. This course will also provide background knowledge on building systems and key concepts to ensure participants can easily apply changes in the 2024 IECC to their work.
