12:10 PM **2010 ADA Ch. 4 Accessible Routes**

This course is designed to familiarize participants with the technical provisions applicable to accessible routes as contained in Chapter 4 of the Americans With Disabilities Act (ADA) Standards per the 2010 update.

John Farinelli, , CBO, MCP, CFM, FSI 1, LEED AP

As Co-founder and Vice President of JC Code & Construction Consultants, Inc., John has used his experience in the construction industry as a Journeyman Ironworker along with his vast knowledge of building code administration to make JC Code a leader in continuing education. He is responsible for all training program development and course instruction. As an educator, John has taught classes for electrical apprenticeship, building code and fire code continuing education, professional license exam preparation, and across the globe for the International Code Council. John is licensed/certified in the following areas: Certified Floodplain Manager (ASPFM) F.S. 468 Licensed building code administrator, plans examiner and inspector in all disciplines F.S. 468 Home Inspector F.S. 633 Licensed Fire Inspector I F.S. 633 Fire & Life Safety Educator F.S. 489 Registered Building Contractor LEED AP John is also an ICC Master Code Professional. These licenses and certifications have been proven invaluable when providing code consulting services and municipal support services to numerous governmental offices, developers, contractors, homeowners, architects, and engineers.

02:20 PM **ADA Accessibility Guidelines: Detectable Warning Surfaces**

Detectable Warning Surfaces are surfaces designed to warn the visually impaired of hazards in the path of travel. ADA accessibility guidelines and the State of California require detectable warning surfaces at public right of way locations. This course looks at the current guidelines and regulations in place regarding detectable warning surfaces, as well as the different types of surface systems and installation methods.

## Integrating Accessibility (2 hours - 2 ADA Credits)

This 2-hour webinar will help architects improve their designs by learning strategies for incorporating access early in the planning phase. By applying ADA-compliant solutions that exceed the minimum standards without adding additional costs, architects can avoid costly after-the-fact resolutions and protect themselves from potential access-related complaints or litigation.

Kristi Avalos

Kristi Avalos is a nationally renowned leader in providing accessibility-related services and is a sought-after speaker with a knack for using an upbeat approach to help others understand the complexities of compliance with the Americans with Disabilities Act (ADA). With over 40 years of experience, she provides expert witnessing on ADA, 504, Federal Housing Administration, and Air Carrier Access Act legal cases. In 1990 Kristi founded Accessology Too, LLC which is a national leader in providing accessibility consulting services and is one of the largest U.S. firms dedicated solely to accessibility and access issues. Since its founding, Accessology has worked closely with the Department of Justice and the U.S. Access Board to remain knowledgeable and adept with the constant changes that occur regarding ADA guidelines. Accessology has worked on numerous multi-million-dollar projects to impact accessibility compliance during all stages from schematics to construction and final inspections. Since 2005 Accessology has specialized in the development, execution, and monitoring of the required ADA Transition Plans for Title II entities to help them avoid access-related litigation since so much litigation is tied to not having a Transition Plan on file. Kristi Avalos and her team at Accessology are committed to removing structural and attitudinal barriers that adversely impact people with disabilities.
