08:00 AM [Welcome, Credits, and Certificates](#)

08:10 AM **Acetylated Wood: Discover the Difference for Siding, Decking, and More**

This course discusses the process of wood acetylation, the resulting changes to wood, applications for acetylated wood, its green credentials and a number of case studies involving acetylated wood.

Daniel Trebelhorn  
Accsys Technology - Titan Wood Inc. Provider #: K382  
AIA #:Accoya2020 HSW | GBCI (USGBC/CAGBC) #:920022858

09:10 AM **Making Sense of Sealants**

Participants will learn about the different families of sealants and how to choose the correct product for each application. We will discuss the effect of UV light on sealants and the difference between structural or non structural silicon sealant. And finally, the importance of surface preparation before sealing joints.

Matt Klinge  
Adfast Provider #: 404109250  
AIA #:AdfSealant2020 HSW | GBCI (USGBC/CAGBC) #:920010342

10:20 AM **Western Red Cedar, Distinctive Sustainable Design**

The Western Red Cedar Lumber Association (WRCLA) is a Non-Profit trade association that was established in 1954. We offer training to discerning users of WRC including the architect community. Western Red Cedar Distinctive Sustainable Designs is a one-hour, face-to-face training session developed for the architect community and provided by WRCLA qualified trainers. Through this one hour session, architects will increase their knowledge of WRC; its' properties and performance characteristics.

Jay Poppe  
Western Red Cedar Lumber Assn (WRCLA) Provider #: G422  
AIA #:WRCLA 4 HSW | GBCI (USGBC/CAGBC) #:920021295

11:20 AM **Eliminating Concrete Moisture through Sustainable Design**

Few aspects of the design process are conducted in "silos" as disassociated from one another as how many projects approach interior concrete slab specifications and subsequent flooring specification sections. This is not done intentionally, rather it is by-product of lack of coordination, and fundamental misunderstanding, between those involved with the structural elements and those involved with the aesthetic and finishing elements. During this presentation, we will discuss sustainability and what it means; drawing the attendee into a clear discussion of how sustainability relates to LEED, Lean Construction, Green Building, and process improvement. Inconsistencies with current specification processes related to concrete moisture as compared to the tenets of sustainability will be exposed, with clear recommendations given as to how the specifying professional can resolve those disconnects.

Dean Craft  
ISE Logik Industries Provider #: 404108239  
AIA #:ISL03K HSW | GBCI (USGBC/CAGBC) #:

## **Factory Prefinishing of Exterior Building Products**

Siding and exterior cladding can be factory finished, which provides up to a 30 year finish warranty, and opportunities for interesting finishes. Learn why specifiers and designers are increasingly adding a specification for factory finishing to meet the demands from their clients for beautiful exteriors with low/no maintenance on a wide range of materials.

Mike Pidlisecky

Woodtone Industries    Provider #: 40107286

AIA #:WT2019 HSW | GBCI (USGBC/CAGBC) #:920011192

02:00 PM

## **Lath Selection & Specification to Enhance Stucco**

Explore alternative stucco lathing and stucco compositions while providing a review of the advantages and disadvantages of the various lath products and compare lathing alternatives. In addition, the course reviews the essential design details for stucco wall systems and identifies specific challenges of stucco wall systems while reviewing best practices and solutions. In addition, Standards and Code compliance of various stucco lathing are explored
